This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE.

The annual bibliography which follows is the thirteenth number of a continuous series opening with 1906. A volume entitled *Writings on American History*, 1902, prepared by Professor Ernest C. Richardson, librarian of Princeton University, and Mr. Anson Ely Morse, was published at Princeton in 1904. A volume upon a plan more like the present, *Writings on American History, 1903*, prepared by Professor Andrew C. McLaughlin, Mr. William A. Slade, and Mr. Ernest D. Lewis, under the auspices of the Carnegie Institution of Washington, was published by that institution at Washington in 1905. After an interval followed the series, *Writings on American History, 1906, 1907*, and *1908*, prepared by Miss Grace Gardner Griffin, and originally published by the Macmillan Company (New York, 1908, 1909, 1910).

Independent publication ceased for a time with the volume for 1908. Beginning with the volume for 1909, though the preparation of the material continued to be provided for by subscription, the printing and publication of the annual bibliography was assumed by the American Historical Association. In its *Annual Reports* for 1909, 1910, 1911, bibliographies of the material published in those years were included. The Yale University Press, with much public spirit, took up at this point the publication of the series, and issued as independent volumes the bibliographies for 1912, 1913, 1914, 1915, 1916, and 1917. Publication by that concern having now ended, the plan of incorporating this annual survey in the *Annual Reports* is now resumed.

To those who desire to have complete sets of the volumes hitherto published, it may be useful to know that the volume for 1902 can still be obtained from the library of Princeton University, that for 1903 from the Carnegie Institution of Washington, while those for 1906, 1907, 1908 (independent volumes), and bound "separates" of those for 1909, 1910, and 1911, can be obtained from the secretary of the American Historical Association. The volumes for the years 1912 to 1917, inclusive, are to obtained from the Yale University Press.

The ensuing pages have been prepared upon the same system as in the preceding volumes. The intention of the compiler has been to include all books and articles, however brief, which contain anything of value to the history of the United States and of British North America. With respect to the regions lying south of the continental United States, however, and to the Pacific islands, the intention has been to include all writings on the history of these regions published in the United States or Europe; but the product (not relating to the United States) of South America and other southward regions has been left to their own bibliographers. New editions of books, if they contain no new material, have not been

noticed. When no other date of publication is given, the date is 1918. The annotations have been confined to explanations of titles which seem to need explanation; or analyses of contents (in many cases taken from the catalogue cards of the Library of Congress), when analyses seemed requisite; or mention of critical appraisals in a few journals whose criticisms have value.

A topical arrangement has been followed. As a rule, the books and articles in any division are arranged alphabetically by the authors' names. In a few cases another arrangement appeared to be more helpful; in the case of biography and genealogy the subject of the book or article determines the alphabetical arrangement.

In the compilation of the material, performed at the Library of Congress, Miss Griffin has had most obliging assistance from Mr. Appleton P. C. Griffin, Chief Assistant Librarian, and the Librarian, Dr. Herbert Putnam has kindly afforded her every facility for her work.

Meanwhile the preparation of the manuscript, as distinguished from the printing and publication, has from 1906 to the present time been sustained by a group of subscribers consisting of various historical societies and individuals, the list for the present volume being the following: the American Historical Association, the Chicago Historical Society, the Colonial Society of Massachusetts, the Massachusetts Historical Society, the Michigan Historical Commission, the Minnesota Historical Society, the Morrisson-Reeves Library, the New York Historical Society, the New York State Historical Association, the State Historical Society of Wisconsin, Mr. C. B. Alexander, Mr. T. E. Brittingham, Professor Henry W. Farnam, Mr. E. F. Greene, and Dr. J. G. Rosengarten. Several other friends of the undertaking have kindly contributed lesser sums towards the expenses of the year.

J. Franklin Jameson.

Cunningham, Charles H. The Inquisition in the Philippines: the Salcedo affair. CATH. HIST. REV., III (Jan.) 417–445. [2373

"Although it may be said that the Inquisition contributed to the strengthening of the ecclesiastical power as opposed to the civil, it sometimes created dissensions within the Church, and especially between and even within the religious orders, and this considerably impaired the otherwise solid front of ecclesiastical unity. It is to these phases of the Inquisition's activities in the most isolated of Spain's colonies that this inquiry is directed."

Cunningham, Charles H. The residencia in the Spanish colonies. SOUTHW. HIST. QUAR., XXI (Jan.) 253–278. [2374

The residencia was a judicial examination held, or an account given of the official acts of an executive or judicial functionary during the term of his incumbency. It is the purpose of this paper to illustrate the general features of the residencia in Spanish colonies by concrete cases drawn from the history of the Philippines.
